

EARTHFEST

SATURDAY, APRIL 17TH 2010

EarthFest is an open competition for local schools. Projects will focus on three areas of environmental awareness: REUSE, REDUCE, and RETHINK. The team that exhibits the greatest knowledge and understanding of their subject area will receive a year's recycling program for their school.

REUSE-Elementary Schools, Projects address the practical application of Reuse

REDUCE- Middle Schools, Projects focus on reducing our consumption and impact.

RETHINK- High School, Projects reflect aspects of sustainable living at home and in the community.

EarthFest supports the education of building sustainable communities, through actions that begin at home and in our schools. Support from our community will ensure the continued efforts of environmental education.

Any business that sponsors the event will be listed in the program and have the opportunity to market their products/services. Environmentally conscious businesses are strongly encouraged to sponsor and participate.

WE RECYCLE

Information on the location, time and specifics for the event will be sent out separately to our sponsors.

There is no deadline to sponsor, but if you'd like your business in the program Sponsorship forms must be in by March 31st 2010
